Dear Editor PAS Sahib.

Even though the corresponding author, ES-726(SP), told me on the phone this morning that the GP you sent was "OK and Clear." I'm still finding several typos I sent you per this email.

As I have reported to you based on these ten years of experience, most Indonesian experts are impatient when checking word by word.

The Author Team and I would like to thank you for your guidance and patience in the process of reviewing, editing, and composing.

Insha Allah, I will receive the 2nd GP soon to continue online.

Jazak Allah Khairan.

Warm,
Roy

Pak Yudi ysh

Pak, mohon bantuan berkenan mengikuti panduan yang telah saya sampaikan Ngih.

Mohon maaf, bukankah saya sudah mengirim contoh salah satu perbaikan author.

Bapak mengirim revisi tanpa diberi tanda warna-warna merah. Sekali lagi, mohon maaf, saya dan publisher kan tidak tahu manakah kalimat dan paragraf yang Bapak perbaiki/ganti (bila tidak Bapak tandai dengan warna merah).

Lanjut juga rebuttal, saya mohon mengikuti contoh yang telah saya sampaikan.

Apakah perlu saya kirim contoh lagi ke Bapak?

Saya memohon kerja sama Bapak, agar malam ini (25 April 2021) dua macam perbaikan tersebut telah saya terima di email saya.

Maturwun. GBU.

Shalom,

Roy

Ysh Pak Yudi

Saya memohon maaf, manuscript Anda **belum memenuhi saran perbaikan** dari reviewer, khususnya tentang IMRAD. Saya copy-paste di bawah email ini dan juga mengirim secara lengkap intruction fo author. Manuscripts Anda **BELUM mencantumkan BAHAN dan METODA** sesuai panduan publisher dan saran reviewer.

Anda memang telah menjelaskan di rebuttal bahwa METODA "terselip" di Bab/Section 3 (Smart Panel Design).

Saya telah membaca dengan saksama, bahwa BAB 3 BUKANLAH methoda. Tetapi sebenarnya sebagian dari INTRODUCTION.

Juga penilaian saya, introduction Anda terlalu panjang (mirip dengan skripsi/thesis/disertasi).

Dengan permintaan maaf, saya memohon Anda berkenan rewrite kembali manuscript anda berdasar IMRAD. Saya memohon **METHODA ditampilkan dalam bab tersendiri**, JANGAN diselipkan di Section 3,

Smart Panel Design

Terus terang Pak Yudi, reviewer yang menyarankan tsb adalah pakar LIPI. Sebelum mengirim penilaiannya ke PAS, beliau telpun ke saya menanyakan, apakah boleh beliau menyatakan mayor revision?

Saya meminta dengan sangat agar JANGAN mencantumkan mayor TAPI minor saja, karena reviewer ke-2 (dari Estonia) telah memberi decision MAYOR.

Bila dua MAYOR maka manuscip Anda akan di REJECT oleh PAS.

Sehubungan dengan permasalahan di atas, saya memohon ANDA berkenan mengikuti saran reviewer LIPI tsb (juga panduan IMRAD dari publisher - copy paste di bawah email ini).

Saya memohon re-write dapat dilaksanakan dengan secepat mungkin (3 x 24 jam).

Maturwun.

Salam hormat

Roy.

Dear Editor PAS

I sent a rewrite of ESS-726 - (SP).

Please accepts my apologies because the author does Turnitin on his campus to guide rewrite. Insha Allah, this action will not cause you any problems. I suggest you exclude as in our initial submission.

I hope the Turnitin index (15%) has met your requirements. However, if it is still higher than the PPAS requirements, please provide information like the previous email.

Thanks a lot for your patience in serving us.

Warm,
Roy
