Dear Sir

Could you let me know the quartile of Journal of physics: conferences series in 2021.
Was it the Q4 in 2021?

Best regards

reply

F **Francisca** 7 months ago

Why doesn't it have quartile 2021? in your answer below it refers to 2022 metrics but not to the 2021 quartile that should already be included.

Best regards

Melanie Ortiz 7 months ago

SCImago Team

Dear Francisca,

Thank you for contacting us. As expressed below, this publication type has been changed from "Journal" to "Conference and Proceedings" and has no Quartile assigned as these are only applied for Journals and Book Series.

Dear Kanchaya,
Thank you for contacting us. Our data come from Scopus, they annually send us an update of the data. This update is sent to us around April / May every year. The SJR for 2021 was released on 11 May 2022. Therefore, the indicators for 2022 will be available in May/June 2023 and before that date we can't know what will happen with this publication.

Reviewing the new classification reported on this web platform, I see with surprise that this journal was eliminated from the assignment of quartiles, while other proceeding journals still continue with the classification of journal and assignment of quartiles. Which leads me to wonder:

Why does this happen?

Is there discrimination in the process?

Why isn't everyone treated the same equally?

Where is the level playing field?

Is there the status favouring of some of these proceedings for belonging to large publishers?

I would like to know the reasons why this journal was removed from the classification by quartiles and why other proceeding journals did not suffer the same treatment.

Staying tuned

Cordially,

reply

Melanie Ortiz 3 years ago

SCImago Team

Dear Anderson,

Thank you for contacting us. As said below, SCImago calculates the SJR data for all the publication's types, but the Quartile's data are only calculated for Journals and Book Series. SCImago does not decide if a publication has to be classified as a Conference and proceedings, journal or book serie. It is Scopus who proceeds to classify the publication types. Therefore, you need to contact Scopus regarding this matter here:

Dear SCImago Team,

It is stated in the JPCS homepage that the journal is a proceeding publication (<https://iopscience.iop.org/journal/1742-6596>). Is it valid and common for proceeding publication to have Q3 rank over years in scopus?

Looking forward for you explanation.

reply

Dear Rose,

Thank you for contacting us.

As you probably already know, SJR is a portal with scientometric indicators of journals indexed in Scopus. All the data have been provided By Scopus /Elsevier. This fact implies that Scopus sends us an annual update of their publications and their metadata. If Journal of Physics: Conference Proceeding appears as a "Journal publication's type " it means that Scopus has categorized it like this. In addition, we have to say that the metadata belongs to Scopus, thus SCImago doesn't have the authority over this data which are exclusively property of Scopus/Elsevier. SCImago has a signed agreement that limits our performance to the generation of scientometric indicators derived from the metadata sent in the last update.

Referring the indicators, we inform you that we calculate the SJR data for all the publication types, but the Quartile data are only calculated for Journal type's publications.

Dear, Editorial Board.

This "Journal of Physics: Conference Series" is classified as 'Journal' or 'Conference Proceeding'? I am a little bit confused about this, as my university recognize this as a Conference Proceeding (not Journal), but SCImago (see 'Publication type' above) classified it as a Journals.

Your clarification is highly appreciated.

Thank you.

Dear Mohammad, SJR is a portal with scientometric indicators of journals indexed in Scopus. SJR has no authority over the data of the journals; they are the ones that Scopus sends us. So we have informed Scopus of the changes you are proposing and we will wait for the response to update the data of your journal. Best Regards, SCImago Team

Dear The Editorial Board,
My Director Assistance said that Journal of Physics: conference series is not a reputed journal but a proceeding. Is that correct?
Thank you for your explanation

Dear Ikhlasul,
thank you very much for your comment. You can use our data to analyze the journal. It has been in Q3 for years and the value of the SJR has been decreasing over the years.
Best Regards,
SCImago Team
