is this journal still (January 2023) Scopus indexed?

**Melanie Ortiz** 4 months ago

Dear Satish,

Thank you very much for your comment.

All the metadata have been provided by Scopus /Elsevier in their last update sent to SCImago, including the Coverage's period data. The SJR for 2021 was released on 11 May 2022. We suggest you consult the Scopus database directly to see the current index status as SJR is a static image of Scopus, which is changing every day.

The Scopus' update list can also be consulted here:

Dear Editor,

What is the percentile range of Q2, is it 50th-74th or 51st-75th?

Thank you

reply

SCImago Team

Category. In the case of SCImago, the distribution has to be considered with the formula
Highest-SJR minus Lowest-SJR divided into four.
